

# RUPANYUP TOWN PROFILE 2022

Photo credit: Yarriambiack Shire Council

Rupanyup was originally Karkaroc, renamed Rupanyup in 1876. Its name is an Traditional Language word meaning 'branch hanging over water'. It is located in the Yarriambiack Shire, 46.6kms from Horsham and 50.7kms from Warracknabeal.

Driving through Rupanyup, it would be easy to see only the almost entirely empty main street shops. The streetscape belies a town with pride and an innovative spirit. The recently opened a new grocery store (product of a community enterprise action), a unique private farming museum, the annual Dirt Music festival, extensive walking tracks and public art installations are a truer representation of this community. Rupanyup sits in close proximity to Murtoa and Minyip. Looking much to Stawell as it does to Warracknabeal or Horsham for larger shops and services, Rupanyup remains more than the sum of its parts.

## WHO IS RUPANYUP?

**Country of Birth**  
(Other than Aus)  
**England, India, Columbia, China and Thailand**

**The median age is 51**

**Households**

We acknowledge that Rupanyup is located on the Traditional Lands of the Wotjobaluk, Jaadwa, Jadawadjali, Wergaia and Jupagulk people, and pay our respects to their elders past, present and emerging.

**WEST WIMMERA HEALTH SERVICE**

# HOW HEALTHY IS RUPANYUP'S LGA (YARRIAMBICK SHIRE)?

Traditionally, health has been measured in rates of illness and disease. When people experience these it can have a larger impact on other aspects of their lives and on society. This is known as the burden of disease. There are systems of reporting that can give high-level information about the burden of disease to **local government or post-code areas**. These include the following sources: ABS Census, PHIDU Social Health Atlas of Australia, VAHI Victorian Population Health Survey, Dental Health Services Victoria Oral Health Profiles and data from the Crime Statistics Agency.

**5 year olds with full immunisation**

**94.9%**

**8.1% of adults have been diagnosed with heart disease**

Potentially preventable hospital admissions is **30%** above the national average

**102** police-recorded family incidents in 2022

Potential years of life lost due to premature deaths is **67%** above the national average

**10%** have a profound or severe disability

**86**  **Median age at death**  **82**

**CANCER**

**4.8%** of adults have cancer (inc. remission)\*

**46.1%** participate in bowel screening

**5.6%** of adults have ever been diagnosed with Type 2 Diabetes

**60.6%** participate in breast screening

**49.2%** participate in cervical screening

Children with at least one decayed, missing or filled baby or adult tooth

**Adults with anxiety or depression**

Females - **41.1%**

Males - **32%**

**7.7%** of adults have three or more selected (see page 4) **chronic diseases\***

**33%** - 0-5 years  
**59%** - 6 years

In the Yarriambiack Shire:

- People have similar rates as the state in cancer screening participation, except cervical which is slightly lower than state
- The rate of females having anxiety or depression is higher than males, which is the same as the state
- The proportion of males and females having anxiety or depression is higher in Yarriambiack compared to the state
- Hospital admissions for preventable conditions is similar to the Australian average
- Police-recorded family incidents is similar to the state rate
- Children with tooth decay at public services is slightly higher than the state

This comparison highlights the areas most in need of improvement for Yarriambiack. Some things that could be done to help in these areas are:

- More mental health services
- Increased education on oral hygiene

# WELLBEING IN RUPANYUP'S LGA (YARRIAMBICK SHIRE)

Wellbeing is derived from far more than physical health. Other factors – the social determinants of health – also impact on both physical and mental wellbeing. Once again, national and state-wide data can give us a high level picture of wellbeing in Rupanyup.

## Highest level of Educational Attainment\*

Bachelor Degree and above	12.9%
Advanced Diploma and Diploma	11.1%
Certificate III or IV	19.4%
Year 10,11 or 12	29.9%
Certificate I or II	0%
Year 9 or below	8.5%

**10.8%** of people 65 and over have a Senior Health Card

**8.8%** Receive long-term unemployment benefit

**5.7%** Low income, welfare-dependent families (with children)

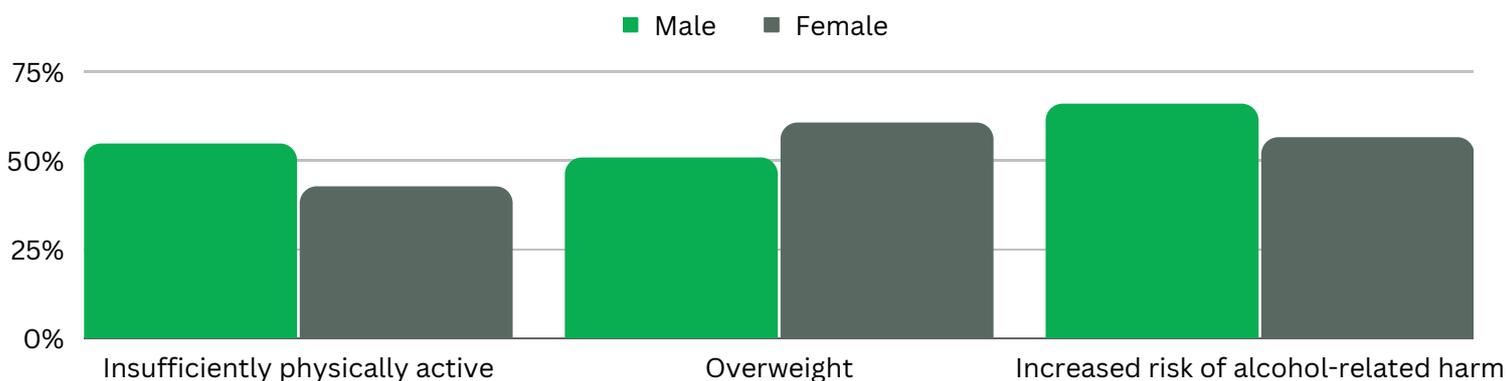

**29.5%** current smokers (daily and occasional)

**13.3%** consume sugar-sweetened soft drinks daily

**55.8%** do not meet dietary guidelines for either fruit or vegetable consumption

Key differences in the Yarriambiack Shire Local Government Area compared to state averages are:

- The proportion of current smokers is almost double the Victorian average
- Higher proportion of males who are insufficiently active
- Higher proportion of females who are overweight

While this data is collected at the Local Government Area level, when considered in the context of Rupanyup's demographics, some key influencing factors are:

- There is a significant proportion of older adults who may have mobility issues or limited ability to participate in physical activity
- Most people work in the farming industry (especially grain farming) which due to the increase of machinery use has led to farmers being less active in their daily work
- Lower median income which can affect people's ability to access resources to support health and wellbeing, and can contribute to higher rates of unhealthy behaviours such as smoking

\*Data at town level not LGA

This is the first edition of Rupanyup's Health and Wellbeing Profile. For this version, we are providing a more in-depth look at chronic disease statistics. In future versions, we will include a page on the outcomes of our 5 Top Things survey. This specific local survey will be Raupanyup's opportunity to identify what matters most about health and wellbeing to the people who live here.

## HOW DOES RUPANYUP COMPARE?

<b>Dementia (inc. Alzheimer's)</b> Rupanyup 2.2% Victoria 0.7%	<b>Kidney disease</b> Rupanyup 2.2% Victoria 0.9%	<b>Lung condition</b> Rupanyup 4.4% Victoria 1.5%
